## ANNOUNCING

Terms Effective September 15th, 1937

Terms covering repairs, parts and accessories on and after the above date will be handled on a cash basis only.

The only exception to this policy will be on major repair jobs where a considerable amount is involved and where necessary credit is established, which will be closed by note on terms of payment to be agreed upon in each individual case.

This decision has been reached without any reflection of credit responsibility, but with a view of rendering better service at lower prices, allowing more attention for the operation of our business that is otherwise required in handling and collecting accounts.

We have every reason to believe you will appreciate our new system and enjoy the savings that will result.

These terms do not apply to Automobiles that will be handled as usual. We shall anticipate an opportunity of continuing to serve you.

# Something

to Think About and Act Accordingly

When Everybody starts advertising, Somebody starts buying.

When people start buying, Somebody starts selling.

When many start selling, Others start making.

When anybody starts making, Someone starts working. When one has started working,

That one starts earning. When many are earning, They all start buying.

When everybody starts buying, Everybody starts selling, making, working, earning and eating.

And we have prosperity for everybody— Because everybody started advertising.

### TO INSURE PERPETUAL TIMBER SUPPLY

RIGHT with Alabama is the policy of selective cutting of timber now in effect with major lumber and paper interests in Alabama. In lumbering under this system, trees that will still make considerable additional growth are left. Planting of young trees in cut-over lands that do not respond to natural re-seeding is also being done. In cutting for paper pulp, progress has been made in the adoption of specifications which require that cutting be done in such manner that natural re-seeding and preparation of pulpwood timberlands will result.

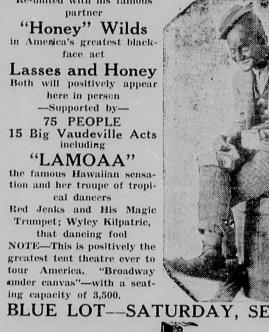

RIGHT, too, is the progress being made in the naval stores industry where each year fewer trees of sapling and pole size are chipped for sap. They will make additional growth and be available for other commercial use after having been worked for turpentine, or will be productive of gum for many more years than if chipped at too early an age.

idence can tell us. You, Max, years Director of the Industrial professor of history at Alabams Michaelis, and Frazier nodded his decision to do the same. "One or 2nd, to succeed Dr. H. G. Lewling, two questions I'd like to put to Acting Secretary, who returned to filliated with the Birmingham In-Archie before we do anything else," Turcaloosa to resume his duties as dustrial Board and three years

Terms Effective September 15th, 1937

Terms covering repairs, parts and accessories on and after the above date will be handled on a cash basis only.

The only exception to this policy will be on major repair jobs where a considerable amount is involved and where necessary credit is established. which will be closed by note on terms of payment to be agreed upon in each individual case.

This decision has been reached without any reflection of credit responsibility, but with a view of rendering better service at lower prices, allowing more attention for the operation of our business that is otherwise required in handling and collecting accounts.

We have every reason to believe you will appreciate our new system and enjoy the savings that will result.

These terms do not apply to Automobiles that will be handled as usual. We shall anticipate an opportunity of continuing to serve you.

### A SOUTHERN COMPANY GROWING WITH THE SOUTH

Thirty years ago this week the Protective Life Insurance Company wrote its first policy. During these thirty years through wars, epidemics, panics, and depressions it has met every obligation promptly and at par. To policyholders and beneficiaries alone it has paid over thirteen million, five hundred thousand dollars. Its territory now extends from Washington, D. C., to Texas. Its record has given it a high place among the outstanding companies of the nation.

For three years Protective Life has written more ordinary insurance in Alabama than any other company in the United States. In 1936 it led its nearest competitor by more than \$1,250,000 - nearly 25%. Its insurance in force now totals \$103,000,000.
